Required Mods:	Shader Pack:
	Resource Packs:

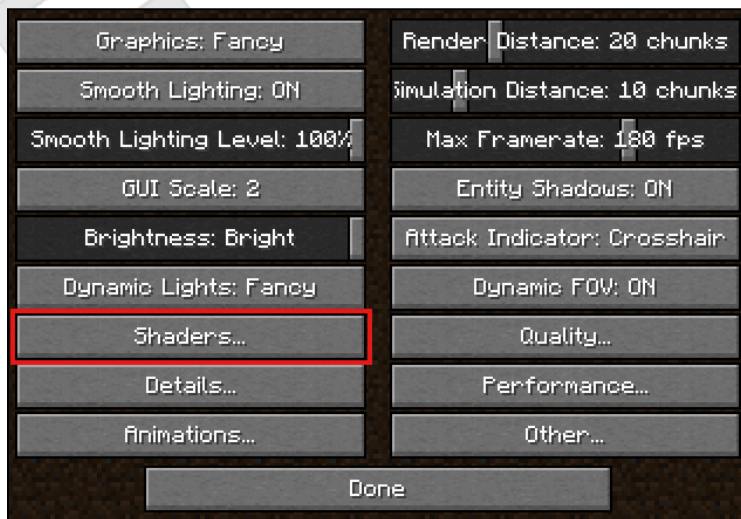

*Optional files are highly recommended

Use the Resource Packs

Method 1:

1. Launch Minecraft
2. Go to Options -> Video Settings -> Shaders -> Shaders Folder

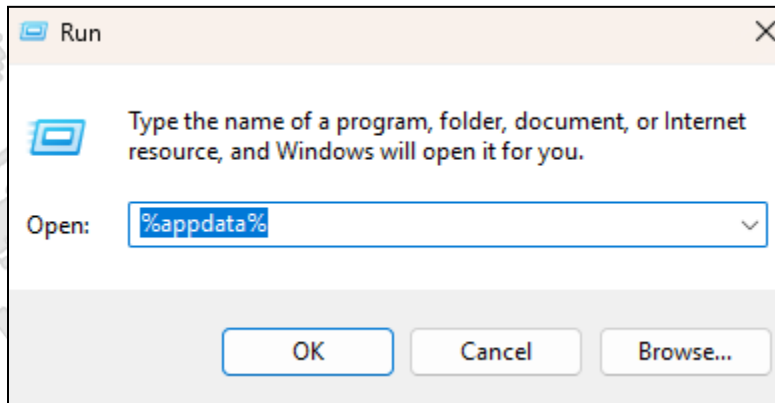

3. Put the zip files you downloaded from cometbelt.xyz into your shaderpacks folder (do NOT unpack them)
4. Enable shader packs by selecting them in Options -> Video Settings -> Shaders and disable them by selecting OFF

Method 2:

1. Hit Windows key + R
2. Type %appdata%

3. Hit OK
 - a. This will bring you to your roaming appdata folder
4. You will see a .minecraft folder, open it
5. Look for a folder called "shaderpacks". If there is no folder, create one.
6. Put the zip files you downloaded from cometbelt.xyz into your shaderpacks folder (do NOT unpack them)
7. Enable shader packs by selecting them in Options -> Video Settings -> Shaders and disable them by selecting OFF
